Single-zone **Thermal 1Z** version, ideal for night-time training with thermal imaging sights. Reference: **QS-DIVERPT1Z**.

Product description:

COMBAT DIVER PROFIL Thermal 1Z ELITE600 — Armed Combat Swimmer Emerging from the Water

The **QS-DIVERPT1Z** target depicts an **armed combat swimmer emerging from the water**, in side view. The silhouette shows a diver with a mask, back-mounted rebreather and compact rifle. The side view clearly shows the rebreather on the back and its breathing hose.

Thermal 1Z: night-time training with thermal imaging sights

The **Thermal 1Z** version features **one heating zone**. It is ideal for night-time training with thermal imaging sights, using a silhouette depicting a combat swimmer emerging from the water.

Freestanding ground target

Like the Predator Sniper, this target is placed on the ground. It is supplied with a **welded armoured ground stand**. Emerging from the water describes the scene represented by the silhouette; the target itself is intended for ground installation.

ELITE600 construction

Made from **12 mm Hardox® 600 steel**, the target combines steel grade and thickness. The ELITE600 range offers high abrasion resistance and is optimised for high-velocity projectiles, including 5.56 mm NATO / .223 Remington.

Power supply and indicators

The 1Z version is supplied with **one removable BOSCH Professional 18V 5.0 Ah battery** and **one EU 230 V AC / 50 Hz charger**. An indicator signals heating-cycle startup, and a low-battery indicator shows when the battery is depleted. Runtime depends on battery capacity and operating conditions.

Specifications

- **Reference:** QS-DIVERPT1Z
- **Silhouette:** armed combat swimmer emerging from the water
- **View:** side view
- **Depicted equipment:** mask, back-mounted rebreather and compact rifle
- **Steel:** Hardox® 600
- **Thickness:** 12 mm
- **Setup:** ground installation, welded armoured stand included
- **Heating:** 1 zone
