

TYGONG Gong Ø 300 mm – .22 LR Dedicated Series

Product codes:

Reference: KG-TG300

EAN13: -

UPC: -

Product features:

Target Dimensions: Dia. 300mm

Material: Hardox 450

Thickness: 5mm

Surface Treatment: Rustproof Primer

Product short description:

Gong with a diameter of 300mm in steel dedicated to the **.22 LR caliber**, made of **Hardox 450** – **thickness 5 mm**, designed for **intensive use from 25 m to long distance**, with the same manufacturing rigor and the same anti-corrosion finish as the all caliber versions.

Drilling for suspension with M10 screws.

Product description:

Description

The **TYGONG by KING GONG .22 LR Dedicated Series** has been specifically designed for **.22 Long Rifle** shooting, from **25 meters** up to **500 meters and beyond**, depending on the setup.

This range is manufactured from **Hardox 450 steel with a 5 mm thickness**, precisely matched to the energy and repeated impacts of the **.22 LR** caliber. It provides an optimal balance between **durability, controlled weight** and **long service life** under intensive use.

Manufacturing follows the **same strict quality standards** as the **all-caliber Hardox 600 – 12**

mm models, including precise cutting, dimensional control and careful finishing.

Each gong features a **factory-applied anticorrosion primer**, identical to that used on the all-caliber versions, ensuring long-term protection before painting or use.

- Caliber: **.22 LR only**
- Dimensions : **diameter 300mm**
- Material: **Hardox 450 steel**
- Thickness: **5 mm**
- Shooting distance: **25 m to 500 m and beyond**
- Use: **sport shooting and intensive training**
- Finish: **factory-applied anticorrosion primer**
