Product codes:

Reference: KG-MBB7050UP
EAN13: -
UPC: -

Product features:

Product short description:

MBB Modular Black Board Mobile Bullet Trap, 70x50cm usable surface.

All common calibers from handguns 9x19mm to assault-rifle 5.56x45mm NATO / 300 AAC Blackout / 7.62x39mm / 5.45x39mm.

Ideal size for tactical training exercises in a kill house or traditional shooting range, or for use in IPSC practical shooting (known as TSV in France).

Contains jacket fragments and projectile cores.

Key features:

- 10 mm HDPE fragment-containment panel
- Economical inner frame made from timber battens to support the fragment-containment panel
- Hot-dip galvanised steel construction for outdoor use
- Four 360-degree casters, two with locks
- Four tilt positions from vertical: 0-10-20-30 degrees
- All components are available as spare parts in the event of an impact.

Product description:

Model : UP - Total Height 1700 mm

Note: Use with FMJ or frangible projectiles only / no steel cores / no HP Hollow Point or WC Wad Cutter projectiles / protective eyewear is mandatory.

Important:

- Regularly check and replace the fragment-containment panel if it shows significant wear.
- This product does not replace a heavy-duty bullet trap for routine or conventional precision shooting.
- For setting up dynamic training areas with multiple targets.

Delivery:

Delivered unassembled on a EURO pallet, with assembly instructions included.
