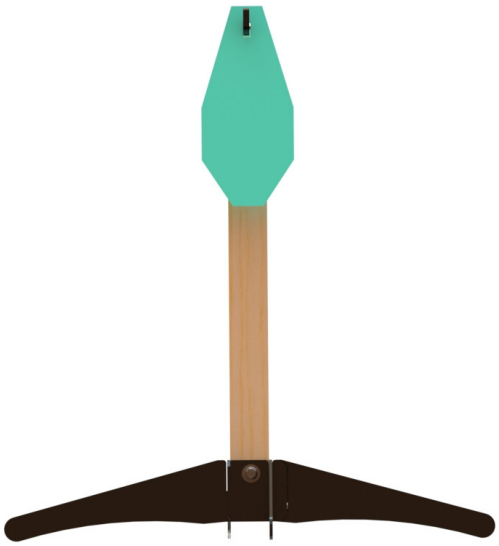
KING GONG ALPHA ELITE600® – Professional IPSC Steel Target | All Calibers



Product codes:

Reference: KG-CGP1015OFE
EAN13: -
UPC: -

Product features:

Material: Hardox 600
Thickness: 12mm
Surface Treatment: Rustproof Primer

Product short description:

The **KING GONG ELITE600® Alpha Gong** is a reactive steel target inspired by the **IPSC Alpha zone**, designed for **IPSC**, practical shooting and precision training.

Manufactured from **12 mm Hardox® 600 steel**, it delivers outstanding resistance to repeated impacts and exceptional durability.

Rated for all calibers up to 12.7×99 mm NATO, ELITE600® is particularly suited to high-velocity rounds such as **5.56×45 NATO / .223 Remington**.

Supplied complete with the **KING GONG Hooker** mounting system, **OnFoot Light** base, target, wooden beam, beam protector and all mounting hardware.

Designed and manufactured in France.

Product description:

KING GONG ELITE600® Alpha Gong – Precision Training Target for IPSC & Practical Shooting

The **KING GONG ELITE600® Alpha Gong** is a reactive steel target inspired by the **IPSC Alpha scoring zone**, developed for shooters looking to improve precision, speed and target transitions.

Its compact impact area replicates the highest scoring zone used in **IPSC (International Practical Shooting Confederation)** competitions, making it an excellent training aid for practical shooting, tactical drills and precision marksmanship.

Designed and manufactured entirely in France, this target benefits from the proven **KING GONG** expertise trusted by shooting clubs, professional instructors and government agencies.

ELITE600® – Premium Hardox® 600 Steel

The Alpha Gong is manufactured from **12 mm Hardox® 600 ballistic steel**, selected for its exceptional wear resistance and ability to withstand repeated impacts.

This premium steel provides outstanding service life, minimizes crater formation and is particularly well suited for high-velocity cartridges such as **5.56×45 NATO (.223 Remington)**.

The **ELITE600®** range is rated for **all calibers up to 12.7×99 mm NATO**, provided the recommended minimum shooting distances and suitable ammunition are respected.

Ready-to-Use Complete Kit

Each Alpha Gong is supplied complete with:

- ELITE600® Alpha steel target
- **KING GONG Hooker** hanging system
- Wooden beam protector
- Wooden support beam
- **KING GONG OnFoot Light** base
- Complete mounting hardware

The Hooker mounting system allows fast target replacement, while the OnFoot Light base provides excellent stability for both permanent and temporary shooting ranges.

KING GONG Advantages

- 12 mm Hardox® 600 ballistic steel
- Rated for calibers up to 12.7×99 mm NATO
- Excellent resistance to high-velocity ammunition
- Instant audible impact feedback
- Complete ready-to-install package

- Made in France
- Engineered for intensive professional use
- Trusted by sport shooters, instructors and government agencies

Safety Recommendations

- Always respect the recommended minimum shooting distances for the caliber used.
- Never use armor-piercing, incendiary or steel-core ammunition.
- Regularly inspect the target and suspension components.
- Always wear appropriate eye protection when shooting.
