KING GONG Predator® Add-On 10:15 – Partial Exposure Target ELITE600

Product codes:

Reference: KG-PET
EAN13: -
UPC: -

Product features:

Material: Hardox 600
Thickness: 12mm
Surface Treatment: Rustproof Primer

Product short description:

KING GONG Predator® Add-On 10:15 – Partial Exposure Target ELITE600 is a reactive steel target representing **one quarter of a full-size Predator® silhouette**, specifically designed to simulate situations where only a small portion of a threat is exposed. It accurately recreates scenarios involving a subject appearing behind a window, vehicle, doorway, wall, or any other obstacle restricting the shooter's line of sight. Ideal for tactical, precision, and judgment training, it is manufactured from **12 mm Hardox® 600 steel** and is compatible with all calibers up to **12.7×99mm NATO (.50 BMG)**.

Product description:

The **KING GONG Predator® Add-On 10:15 – Partial Exposure Target ELITE600** has been developed to expand the **Predator®** training system by accurately reproducing realistic scenarios in which only a limited portion of a threat is visible.

Representing **one quarter of a full-size Predator® silhouette**, this target enables shooters to train for challenging engagements where only a small exposed area is available. It realistically simulates a hostile subject partially concealed behind a window, vehicle, doorway, wall, barricade, or any other obstacle restricting a full sight picture.

This type of training improves threat identification, sight alignment, trigger control, and shot placement under realistic operational conditions.

Laser-cut from **12 mm Hardox® 600 steel**, the target incorporates **ELITE600** t providing exceptional resistance against repeated impacts, including high-velocity cartridges such as **5.56×45mm NATO / .223 Remington**. It is compatible with all calibers up to **12.7×99mm NATO (.50 BMG)** when used in accordance with the recommended minimum safety distances.

Its optimized geometry promotes safe bullet fragmentation by directing splatter toward the ground when suspended with a slight forward angle.

Features

- **Predator® Add-On 10:15** module
- **Partial Exposure Target**
- One-quarter of a full-size Predator® silhouette
- Designed to simulate partially exposed threats
- Ideal for tactical, precision, and judgment shooting
- **12 mm Hardox® 600 steel**
- **ELITE600** technology
- Compatible with all calibers up to **12.7×99mm NATO (.50 BMG)**
- Outstanding resistance to high-velocity rifle cartridges, including **5.56 NATO / .223 Remington**
- Anti-corrosion primer coating
- Designed and manufactured in **France** by **QUARTZ PRECISION**
