Product short description:

KING GONG PICKUP ELITE600: a **1:5-scale pickup truck silhouette target** made from **12 mm Hardox® 600 steel**, supplied with an **armoured ground stand**.

Designed for anti-materiel shooting training with calibres up to **12.7 × 99 mm NATO (.50 BMG)**, including .408 CheyTac and .338 Lapua Magnum. Dimensions: **106.6 × 36 cm**. Total weight: **approximately 35 kg**.

Product description:

KING GONG PICKUP ELITE600 — 1:5-Scale Pickup Truck Silhouette

The **KING GONG PICKUP ELITE600** is a steel target representing a Hilux-type pickup truck. It combines a 1:5-scale silhouette, a 12 mm Hardox® 600 steel plate and an included armoured ground stand.

A precisely scaled silhouette

Measuring 106.6 cm long and 36 cm high, the 1:5-scale target represents a vehicle 5.33 m long, corresponding to a pickup approximately 5 m in length. At 100 m, it has the same apparent size

as the represented vehicle at 500 m. This comparison describes apparent size only; it does not specify an approved shooting distance.

ELITE600: steel grade and thickness

The **12 mm Hardox® 600 plate** provides the abrasion resistance of the ELITE600 range. This version is intended for calibres up to **12.7 × 99 mm NATO (.50 BMG)**, including **.408 CheyTac** and **.338 Lapua Magnum**. The ELITE600 range is also optimised for high-velocity projectiles such as 5.56 mm NATO / .223 Remington.

Technical specifications

- **Reference:** KG-PICKUP
- **Range:** ELITE600
- **Shape:** pickup truck silhouette
- **Scale:** 1:5
- **Silhouette dimensions:** 106.6 cm long × 36 cm high
- **Steel:** Hardox® 600
- **Thickness:** 12 mm
- **Total weight:** approximately 35 kg
- **Stand:** armoured ground stand included

Included

- One KING GONG PICKUP ELITE600 silhouette target.
- One armoured ground stand.
