Product description:

Predator® Thermal 2Z ELITE600 — 2 Heating Zones

The **QS-PT2Z** target from QUARTZ SYSTEMES is based on the **Predator® II ELITE600**. This anatomically proportioned standing shooter silhouette is designed for shooting training with thermal imaging sights. This revised, simplified version has been available since 2025 and uses the proprietary registered Predator® design.

Thermal signature: head and chest

The **2Z** version features **2 heating zones: head and chest**, creating a representative thermal signature on the target.

Setup and operation

Complete target supplied with a ground base and armoured support stand.

The system is designed for quick, straightforward setup. An indicator signals the start of the heating cycle, and a low-battery indicator shows when the battery is depleted.

Power supply

This version uses **1 removable battery** and is supplied with 2 **BOSCH Professional 18V 5.0 Ah batteries**. Runtime depends on battery capacity and operating conditions.

ELITE600 range

The ELITE600 range combines steel grade and thickness for high abrasion resistance. It is optimised for high-velocity projectiles, including 5.56 mm NATO / .223 Remington.
