Standard version without a heating system. Reference: **KG-DIVER3Q**.

Product description:

COMBAT DIVER 3Q ELITE600 — Armed Combat Swimmer Emerging from the Water

The **KG-DIVER3Q** target depicts an **armed combat swimmer emerging from the water**, in three-quarter view. The silhouette shows a diver with a mask, back-mounted rebreather and compact rifle. The three-quarter view shows the upper body, mask and rebreather hoses around the neck.

Standard steel target

This standard version is a steel target without a heating system. It depicts an armed combat

swimmer and complements a range of shooting-training silhouettes.

Freestanding ground target

Like the Predator Sniper, this target is placed on the ground. It is supplied with a **welded armoured ground stand**. Emerging from the water describes the scene represented by the silhouette; the target itself is intended for ground installation.

ELITE600 construction

Made from **12 mm Hardox® 600 steel**, the target combines steel grade and thickness. The ELITE600 range offers high abrasion resistance and is optimised for high-velocity projectiles, including 5.56 mm NATO / .223 Remington.
