Product short description:

Permanent MTN 94 spray paint, R-9010 white, in a 400 ml can. Refresh steel targets, cover previous impact marks and add contrasting markings with KING GONG stencils. Matt finish, high coverage and low-pressure application.

Product description:

Refresh your targets for clear impact visibility

MTN 94 R-9010 white spray paint covers previous shot marks and renews the background of steel targets. Use KING GONG stencils to create contrasting target zones.

Specifications

- Reference: MTN-94R9010.
- 400 ml can; R-9010 white.
- Permanent synthetic paint with an opaque matt finish.
- Low-pressure application for controlled spraying.
- Original spray cap included.

Application

Clean and degrease the surface. Remove corrosion from metal and apply a suitable primer where required. Shake for about one minute after hearing the mixing balls. Spray thin coats from approximately 25 cm away, allowing 10 minutes between coats. After use, turn the can upside down and spray briefly to clear the nozzle.

For temporary washable markings, choose MTN PRO chalk paint instead. Paint does not repair a damaged target.

Use in a well-ventilated area, away from energised electrical equipment. Hazardous: follow the precautions on the can.
