

# KING GONG STRAP FLEX 40 - Reinforced PVC Target Suspension Strap, 10 m

**Product codes:**

Reference: KG-SF40-10M

EAN13: -

UPC: -

**Product features:****Product short description:**

Flexible double-layer fibre-reinforced PVC strap for hanging gong targets as an alternative to chains. Length: 10 m. Approximate width: 40 mm. Thickness: 3 mm. Cuts with scissors. Allow around 75 cm per strap for a standard installation, depending on the mounting arrangement.

**Product description:**

An alternative to suspension chains

KING GONG STRAP FLEX 40 is designed for hanging gong targets. Its flexible double-layer fibre-reinforced PVC construction aims to reduce interruptions caused by frequently broken chains. It can withstand multiple accidental bullet strikes without breaking; performance depends on the impacts and the condition of the strap.

**Dimensions and cutting**

Supplied length: 10 m. Approximate width: 40 mm. Thickness: 3 mm. Weight: 1.5 kg. Cut with scissors to suit your installation.

---

Most standard installations require approximately 75 cm per strap. A 10 m length provides thirteen 75 cm sections, with 25 cm remaining. The number of targets equipped depends on the number of straps per target and the mounting arrangement.

#### Mounting accessories

KG-SL45-10: stainless steel slides to secure the strap around the timber beam.

KG-ST10MM: 10 mm hole punch for making holes in the strap.

KG-SGMS: dedicated hardware kit for hanging 5 targets, including M10 bolts, nuts, lock nuts and M10 large-diameter washers.

#### Pack contents

Only the 10 m strap is included. Slides, hole punch, hardware, timber, stand and target are sold separately. Inspect the strap and fixings before use and replace damaged components.
